## Opinion of Doctors in China:

"In all cases both young and old suffering from digestive derangements and irritation and weakness of the alimentary canal, I have found it of the greatest use."

"Being convenient to prepare and all that can be desired as a sustaining nourishing diet, we greatly value its use."

"It is useful in all forms of weakness, but I found it specially helpful in dysentery."

"At the weaning stage it has been very useful in tiding them over the difficult time."

"In case of persistent vomiting after chloroform or from other causes it has sometimes been the only food that the stomach could retain."

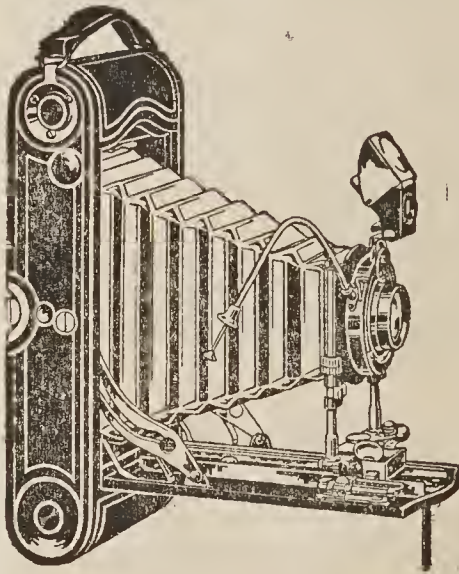

"I have found Nestlé's Food valuable among my Hospital patients, especially with those suffering from weak and disordered digestion. Nephritis, chronic diarrhoea and dysentery cases, as well as typhoid fever, have been helped by it."

## PREFACE

**Arrangement and Method**      The following notes sent to Secretaries of Missions with lists for correction explain the nature and scope of this DIRECTORY.

The Directory is arranged in four parts :

**1. Societies**      In this part is given first the official legal name of the Society or Board, in capital letters, followed by an abbreviated or popular name (in parenthesis) in common use in China, then by initials in **IONIC CAPITALS**, without punctuation, for convenience in reference.

The *Home Address* given is that of the main administrative center abroad, or in China.

The *correct title* of the Society in Chinese character should follow.

If the work in China is divided into Missions, Dioceses, Districts, Conferences, or other *administrative units* of more than one resident station, these units are arranged in the alphabetical order of the designation of the unit, even if this involves a violation of the alphabetical order of provinces.

In each administrative unit the *stations with resident missionaries* are arranged in alphabetical order by provinces, and then alphabetically by the name of the station as Romanized by the Chinese Postal Guide (Edition of January, 1918). In each case it is intended to give the Chinese character before the Romanized form.

The *date of first residence* by missionaries of the society concerned should follow the Romanized form of the station name. It is desirable also to add the date of first residence in the province if this can be given. In case a station or province has been thus opened, or occupied and afterward closed and re-occupied, both dates should be given, or a note should be made indicating whether the date given is that of first occupation or the date when the last continuous occupation began.

The *names of missionaries* resident in each station are given in alphabetical order rather than in order of seniority. Give first the Chinese name, preferably three characters, in the foreign order (1, 2, 3), then symbol (r, s, t, etc.) indicating status, surname, title (if Miss or Mrs.), Christian names or initials or honorary degrees, position in Mission (if Bishop, Superintendent, Director, Secretary, Treasurer, Statistical Secretary, etc.), date of first arrival in China (not necessarily the same as that of joining this particular mission). In case

of married men the words "& wife" follow the degrees or initials and precede the date of arrival, unless the dates of arrival of husband and wife differ, in which case both should be given.

*Language Students* are indicated by italics. If this is not to be the principal occupation for the next year of any person whose name is now in italics, mark "not student."

*Code Books.* A beginning has been made in indicating the use of two Codes generally employed. If desired, other codes in use may be indicated. It is particularly desired to learn the stations as well as the Societies which actually have copies of these code books and a note will be made by a symbol printed by the name of the station, if the information is supplied to the editor. † may be used for *Missions Code* and ¶ for *China Inland Mission Code*.

In some cases a missionary serves *more than one society*, in which case the name is entered under each and is followed by the initials of the other in parenthesis.

*Degrees.* The use of academic degrees is desired by some and is offensive to others. So far as is possible individual preferences will be followed if made known to the editor in writing.

*The Name of Societies* are arranged according to the main denominational group to which they belong—Anglican, Baptist, Congregational, Lutheran, Methodist, Presbyterian, China Inland Mission, or Other Societies. In each group the order of Societies is determined by the alphabetical order of the abbreviations chosen to represent the Society. These abbreviations conform, so far as possible, to those used in the publications of the Continuation Committee of the World Missionary Conference, and in the *Missions Code*. Uniformity from year to year will greatly aid in standardizing and familiarizing these to the general public interested in missionary matters.

In general it is not intended to include the *name of Chinese* employed in missionary work except when their relation to the Societies and their remuneration is upon the same basis as the foreign missionary. It is intended to include all non-Chinese regularly in missionary employ, whether they have "missionary standing" and a vote in the missionary organization or not. The regular foreign teaching or office staffs should be included, but may be specially marked if desired.

**II. Geographical Grouping** The Second Part of the Directory re-groups the names of missionaries by their geographical location, alphabetically by province, station, abbreviations of Society names, and surname of the missionary. In this part no Chinese characters are given except names of stations, no names of administrative units, and no dates except those of the opening of the stations.

### III. Alphabetical

The Third Part is a single alphabetical list of missionaries giving titles and names, degrees (and wife), initials of society, and postal address.

The Second and Third Parts are compiled in the offices of the China Continuation Committee from the corrected sheets of the First Part and may differ, to conform to information received during process of publication (which occupies nearly four months). Changes reported before final proofs are read will be made in these parts.

### IV. Organizations

The Fourth Part is a list of National or Inter-denominational or Union Organizations and Committees of importance to more than a single society. The names will ordinarily largely duplicate those in other parts, indicating the voluntary elective or appointive relationships of those serving the general missionary activities aside from their employment by their respective societies.

### Acknowledgments

The Editor desires to acknowledge his indebtedness to the many correspondents whose loyal and ready coöperation in supplying information and in calling attention to errors has made possible whatever degree of accuracy and completeness has been attained and whose suggestions have led to improvements in each annual issue.

Any further suggestions for the improvement of this DIRECTORY will be welcomed by the Editor.

### Apology

It is felt that an explanation of delay in publication of this year's Directory is due to Subscribers. After the first of the copy had gone to the printers in January the editor had new work put upon him which prevented proof reading or the preparation of further copy. The first fifty pages were read by his clerk but not returned to the printer as the editor wanted to look over them. As the opportunity to complete the work did not present itself, the editor, when leaving for America in July, turned over the copy etc. to be put through without his oversight. The preparation of copy for parts two and three as well as the proof reading have been done under many difficulties but it is hoped that the volume as issued will be found useful, and that its imperfections may be overlooked.

The editor expects to get out the 1921 volume under his own care.

## INDEX OF SOCIETIES

In the following list the name given in **Jenson Type** is the name under which the Society appears in the *World Atlas of Christian Missions* and the *Missions Code*. Names in Roman type only are of societies not entered in either of these books. The name in parenthesis is that which was used in the *China Mission Year Book 1915*, in case this differs from the form used in the *World Atlas* or *Missions Code*, while the denominational group under which it appears in the **DIRECTORY** is given in *italics*.

The initials in **IONIC TYPE** indicate the abbreviations which have been adopted by the China Continuation Committee for use in future issues of the *China Mission Year Book*. With few exceptions they are the initials used in the *World Atlas* and the *Missions Code*. Initials preceded by an asterisk (\*) are those used in previous issues of the *China Mission Year Book* where these differ. Those enclosed in brackets are new abbreviations adopted by the China Continuation Committee.

More doctors are prescribing  
**CALOL**  
every day

The use of mineral oils as a treatment for intestinal stasis has been the result of long and thorough research for a relief for constipation which would not irritate the intestines, but would assist the normal peristaltic action of the bowels and carry off the fecal matter contained therein without disturbing the general organisms of the system.

The fact that CALOL is not absorbed into the system makes it possible that it may be taken in any quantities, but the best results are obtained from the regulation of the amount to suit individual cases under the direction and care of the medical profession.

**English Synonyms, Antonyms, and  
Prepositions**

*By James C. Fernald, L.H.D.*

Every worker in words is at times at a loss for just the right word to express his meaning in some particular phrase. A *wrong* word or a *weak* word will often ruin the effect of the whole sentence in which it is used. For those who want to be able to select the best and most accurate word every time, this book is of immense value. (724 pages)

The **PIRATED EDITION** of "Fernald's English Synonyms, Antonyms & Prepositions" sells for Mex. \$1.80. As Agents for Funk & Wagnalls, Publishers of Fernald's WORKS, we offer the original edition for Mex. \$1.50.

# PRONTO

THE FIRST  
**Practical Fire Extinguisher**  
AT A PRACTICAL PRICE

---

**PRONTO** is **SIMPLICITY** itself. There's nothing to operate or get out of order.

**PRONTO** can be used **INSTANTLY** even by a child. You simply pull it from its bracket on the wall and dash the contents into the flames. The liquid is the most effective known to fire engineers; **IT CHOKES** a fire instantly—even gasoline, oil and electric fires.

**SIX PRONTOS** will protect **SIX** different places for about the **SAME COST** as **ONE** ordinary "one place" extinguisher.

---

*Every Mission Home, Hospital and School needs FIRE PROTECTION. The price of PRONTO puts it in your reach. Send a post card to-day for full information and special rates.*
